Dear Mr. Pierce:

Thank you for your invitation to provide input into your review and consultation processes for your new publication, entitled "*Environmental Claims – a Guide for Industry and Advertisers*".

My staff will review the above-mentioned document after it is available on your website. We would then provide comments, within your specified timelines, that we believe would be of concern to us.

Again, I appreciated the inclusion of my department into your consultation process.

Sincerely,

Patterk Netser
